SUMMARY
Accomplished Full Stack Engineer experienced in JavaScript, TypeScript, React, Next.js and Vue. Proven ability to engineer applications for industry leaders including Fidelity and RBC. Skilled in implementing responsive design, managing version control, enhancing SEO and optimizing through effective unit testing.

SKILLS

React	Node.js	Tailwind	Git
Vue	Next.js	CSS	Docker
JavaScript	Python	Figma	Kubernetes
Typescript	FastAPI	Adobe	Storybook

WORK EXPERIENCE

Lawbrokr – Full-Stack Engineer – Jan 2026 – Present
- Led React feature development with founder and product, shaping roadmap and UX decisions.
- Built reusable UI components from Figma with Tailwind for responsive, mobile-first layouts.
- Improved reliability by adding unit/integration tests and tightening review and QA workflows.
- Maintained and extended Rails app, shipping features and refactors while ramping quickly.
- Integrated Python/AI services via APIs with strong error handling, logging, and monitoring.
- Optimized PostgreSQL queries and schemas for reporting, attribution, and data integrity.
- Built third-party integrations and analytics tracking to improve attribution and conversions.

Interad – Full-Stack Engineer - Aug 2021 – Dec 2025
- Developed and maintained web applications using React, Angular, Vue, and WordPress.
- Exceeded client requirements for Fidelity and RBC serving over 100,000 daily users.
- Collaborated with clients and project managers while implementing SEO strategies.
- Maintained meticulous documentation and version control using git while conducting unit testing.
- Built, tested and maintained dynamic user facing tools while delivering pixel-perfect design.

Reliance – Frontend Engineer - Jan 2020 - Aug 2021
- Developed responsive cross-platform web applications using JavaScript, CSS, Vue, and React.
- Innovated user experience standards with Adobe and Figma while enhancing brand identity.
- Deployed dynamic web applications in a timely manner to exceed client expectations.
- Increased user retention through responsive design and accessible development.

EDUCATION
